Dear Wife

I wrote to you last night and did not know when I was to be relieved I know now and will let you know as soon as possible. I am to be relieved tomorrow and turn over all that I have in my charge I will then make up my papers at once and join my Regiment to go home with it so that is settled and you can look for me home with the Regiment which will go next week I shall be very busy for several days and have not much time to spare to make my returns, which I will hurry up with all the speed I can so as to be ready to start as soon

The Regt can get transportation
I am well as usual and happy
at the prospects of soon being home
again no news to write this time
and this letter will necessarily be
short as I have other business that
must be attended to believe me
as ever your affect husband
